## General information

[Erasmus+ supports traineeships](#) (work placements, internships, etc.) abroad for students currently enrolled in higher education institutions at **Bachelor** and **Master level** as well as for **doctoral candidates**. These opportunities are also open to **recent graduates**.

The traineeship may be carried out at any organization in an [Erasmus+ Programme Country](#) (with the exception of EU institutions, bodies and agencies).

## Benefits of hosting a European trainee

An Erasmus+ trainee **offers many benefits for your organization**. It enables you to:

- Benefit from Erasmus+ trainees' insights into their home culture, which can open doors to new markets and expand your European horizons.
- See increased competitiveness and innovation, as trainees bring new skills, fresh enthusiasm and new perspectives.
- Road test potential future employees.
- Bring new cultures, languages and working methods into your team.
- Take a first step towards closer long-term cooperation with education and training to better match your skill needs.

## Duration and financial support

Traineeships may have duration **between 2 months and 12 months**. Traineeship periods are generally flexible and may be agreed upon with the student.

Students may receive for an **Erasmus+ grant** during a maximum of 3 months as a contribution to your travel and subsistence costs. The monthly amount ranges from **300 to 500 euros**, depending on the host country and the student's social background.

At UAM, almost all students receive this grant but students may also carry out the traineeship without receiving financial support by the Erasmus+ Programme.

The Erasmus+ Programme does not establish an obligation to pay a salary to the trainee, but since legal obligations vary significantly from one country to another you should follow your national rules in this regard.

In any case, an **allowance or any other kinds of remuneration, including contributions in kind such as meals or accommodation, are compatible with an Erasmus+ grant**.

## Accommodation and transport

There is no obligation to organize accommodation or transport for the student, but you may choose to help him/her find suitable accommodation and contribute to transport costs.

## Steps to follow in order to host a student

The administrative process to arrange an Erasmus+ traineeship for a UAM student is rather easy. First you will have to **agree** with them the **on the tasks to be carried out, duration, and other the basic conditions of the traineeship**, bearing in mind that a traineeship is a learning experience.

As soon as you and the student have reached an agreement, he or she will ask you to fill in and sign a **Learning Agreement for Traineeships** containing:

- Your **contact information** (*page 1*)
- The **Traineeship Programme** (*Table A*); duration and tasks for the traineeship period, expected learning outcomes, monitoring and evaluation plan, required language competence
- **Basic traineeship conditions** at your organization (*Table C*)

Scanned and electronic signatures are accepted. **This agreement between the student, their home university and the receiving organization serves as the legal framework for the traineeship.** S (You may refer to the [Guidelines on how to use the Learning Agreement for Traineeships](#) for more information about the document.)

At end of the traineeship your organization shall issue a **Traineeship Certificate** to an evaluation of the student) and a **Certificate of Attendance** (confirming the duration of the traineeship).

## Insurance coverage

**Health insurance:** Students are recommended to apply for a **European Health Insurance Card**, giving them access to medically necessary, state-provided healthcare during their traineeship period.

Additionally, **UAM will provide travel insurance** for the student that covers, among other guarantees:

- **Medical expenses** due to illness or injury, **repatriation or relocation** if necessary,
- **Personal accidents** (damages caused to the trainee at the workplace, during travels made for work purposes as well as on the way to work and back from work)
- **Private civil liability**
