For ALL evaluation periods (ordinaria/regular, extraordinaria/resit), each course may decide whether to use or to not use the assigned slot. If the slot is employed, each course must choose one option between a final exam or oral presentations by students (but not both options). The following conditions must be satisfied when using the allocated slot:

- If the *final exam* is chosen, it will be held at the time indicated in the calendar, and no other teaching or evaluation activity will be carried out during the evaluation period. If an extension of the assigned slot is required, it must be requested in advance to the master academic commission.
- If the *oral presentation by students* is chosen, the assigned day may be used for the presentation of such final papers (not only the assigned slot). In this case, there is no need to request an extension of the assigned slot.

**The course coordinator must book the required space (i.e., laboratory or classroom) for the evaluation,** either for the final exam or for the presentation of final work by students.
