Motivation Letter

In order to facilitate to the PhD Program Academic Committee the evaluation of your request and, if appropriate, the Thesis Supervisor and Director assignment, there will be necessary that you write a motivation letter on which you must include the following information.

Adaptation of the previous studies to a researchline or area of the PhD Program for which it is requested the admission.

Identify the research line (1) of the PhD Program on which you want to develop the Doctoral Thesis, specifying the exact subject in which you expect to delve into and also justify the adaptation of your previous studies or professional experience to the research line or subject chosen, specifying exact courses or Works related directly with it.

Identification of the Researcher (s) of the Program under by his/her or their supervision you will develop your Doctoral Thesis.

Identificate the Researcher (s) of the Program whose previous Works motivate you to develop a doctoral thesis under his supervision, pointing in each case the publications of these researchers that are more related with the Line or Area of research in which you expect to delve into.

Indication of the language on which you will develop your PhD Studies:

---

1 The research lines of each program can be found in the description of each program on the EDUAM website.
